[More Recent Publications](#)[Browse Aberdeen's InSights](#)[Browse Aberdeen's Perspectives](#)**Profile: The ASP Value Proposition: Promises Made, Promises Fulfilled**

September 2001	Application Service Providers	Lew Hollerbach
----------------	-------------------------------	----------------

AppShop was selected for inclusion in Aberdeen's research report, *What Works: Ten Significant ASP Implementations of 2000*.

Profile: Capturing Value from Your Internet Infrastructure: Optimizing Revenue and Operations with Usage Metering

August 2001	Carrier and Enterprise Communications	George Peabody
-------------	---------------------------------------	----------------

This Aberdeen *Profile* describes the need for metering and mediation in today's carrier and service provider IP networks, particularly applied to maximizing revenue and reducing operational costs.

Profile: CODA: Delivering the Financial Intelligence Decision-Makers Need

August 2001	Financial Analytics	Alan Yong
-------------	---------------------	-----------

The CODA-Financials general ledger application and the CODA-Intelligence financially oriented data mart - the focus of this Aberdeen *Profile* - essentially constitute a debit-credit engine, a "pure" database of core transactional data, organized by account codes, in debit/credit format.

Impact: Sistina Software: Empowering Network Storage

August 2001	Storage & Storage Management	David Hill
-------------	------------------------------	------------

This Aberdeen *Impact* focuses on Sistina's storage software products - a highly reliable cluster file system, a powerful logical volume manager, and associated storage management tools - that empower robust, scalable network storage environments.

Profile: Pragmatech Software: Accelerating Sales with Proposal Automation

August 2001	Customer Relationship Management	Karen Smith
-------------	----------------------------------	-------------

This Aberdeen *Profile* describes the market opportunity for proposal solutions; it also highlights the capabilities of Pragmatech Software and its RFP and Proposal products.

Impact: MAPICS Cameleon: An Integrated Front-Office Solution to Streamline Processes for Manufacturers

August 2001	Customer Relationship Management	Karen Smith
-------------	----------------------------------	-------------

This Aberdeen *Impact* examines how MAPICS's iSeries ERP customers can be up and running with a front office solution quickly and cost effectively.

Profile: Convergys and Siebel: An Alliance to Deliver Enterprise-Class Customer Care

July 2001	Customer Relationship Management	Chris Martins
-----------	----------------------------------	---------------

This *Announcement Profile* reviews the specifics of the Convergys and Siebel alliance - a 10-year agreement - as well as its implications for the telecommunications marketplace.

Impact: Surgient Networks: Simplified Networking Through a Flexible, Integrated Platform

August 2001	Internet Infrastructure	Michael Hoch
-------------	-------------------------	--------------

This Aberdeen *Impact* examines Surgient Networks' single integrated platform with gigabit-level throughput capabilities, which simplifies and accelerates almost any network application.

Impact: The Sun/EDS Alliance: Should ASPs Worry?

July 2001	Application Service Providers	Lew Hollerbach and Stephen Lane
-----------	-------------------------------	---------------------------------

This Aberdeen *Impact* examines the implications of the Sun Microsystems and EDS alliance on today's ASPs.

InSight: The Optical Opportunity: A Refractive View of the Present Market - and Its Future

August 2001	Optical Communications	Andy McCormick
-------------	------------------------	----------------

In this *InSight*, Aberdeen examines the existing view of the communications networking market - particularly the intelligent optical networking segment.

<i>InSight: The HSP Market: Are You Ready for the Shakeup?</i>		
August 2001	Carrier & Enterprise Communications	Dana Tardelli
The hosting services market is at a crossroads. Slow market adoption and fundamental changes in business strategies have opened the door for a reordering of market leadership.		
<i>Profile: The Perils of Customization in Enterprise Software: Don't Let Your Desire to Be Unique Damage Your Bottom Line</i>		
July 2001	Enterprise Applications	Katherine Jones
This <i>OnSite Profile</i> examines Staff Leasing's full range of payroll, benefits, and workers compensation programs for small to midsize companies.		
<i>InSight: Linux Is on the Move - Up!</i>		
July 2001	Linux and Open Source Software	Bill Claybrook
This Aberdeen <i>InSight</i> argues that Linux will join IBM's z/OS and Microsoft's Windows as the primary server OSs before the end of the decade.		
<i>Impact: Onetta Embeds Intelligence into the Optical Network</i>		
July 2001	Optical Communications	Elizabeth Bruce
This Aberdeen <i>Impact</i> examines Onetta's current products, which include high-performance optical amplifier subsystems with transient control.		
<i>Impact: CNS: Enterprise-Class MSP for SMB Market - 24x7 Monitoring and Break/Fix Maintenance</i>		
July 2001	Enterprise Systems Management	Valerie O'Connell
In this evolving market space, Computer Network Solutions (CNS) - the focus of this Aberdeen <i>Impact</i> - stands out as an early success story.		
<i>Profile: Web-Based Service Management: Do You Believe in Magic?</i>		
July 2001	Customer Relationship Management	Chris Martins
This Aberdeen <i>Profile</i> discusses Magic Solutions, a supplier of service management solutions that has redesigned its offering to create a completely browser-based application.		
<i>InSight: Slippery Road Ahead for Internet-Based Energy Service Providers</i>		
July 2001	Energy and Communications	Ethan L. Cohen
This Aberdeen <i>InSight</i> takes a fresh look at the challenges at hand for Internet-based energy service providers (ESPs), and it surveys the current market environment in which the ESPs are operating.		
<i>InSight: e-Health: The Brave New World of Healthcare?</i>		
June 2001	e-Healthcare	Alison N. Haughton
This Aberdeen <i>InSight</i> discusses the challenges facing e-Health and the questions investors should be asking.

[More Recent Publications](#)[Browse Aberdeen's InSights](#)[Browse Aberdeen's Perspectives](#)***InSight:* Enterprise 'Hay Day' on the Prairie: Microsoft Great Plains a Tornado to Be Reckoned with**

October 2001	Enterprise Applications	Katherine Jones
--------------	-------------------------	-----------------

As detailed in this *InSight*, Aberdeen sees widening product breadth, international growth, up-market movement in enterprise sales, and quite likely a new contender in the mid-market CRM arena.

***InSight:* Outsourcing Customer Care: Showcase for Competency, Buffer from Complexity**

October 2001	Customer Relationship Management	Chris Martins
--------------	----------------------------------	---------------

This Aberdeen *InSight* makes a case for Customer Interaction Management (CIM) outsourcing as a savvy deployment approach to customer management strategies in today's uncertain business climate.

***InSight:* Living with Windows XP Media Player and Wireless Support**

October 2001	Enterprise Applications	Peter Kastner
--------------	-------------------------	---------------

In this *InSight*, Aberdeen details why we believe almost all previous Windows users are going to enjoy living with Windows XP.

***InSight:* Upgrading to Windows XP: A Long and Winding Road**

October 2001	Enterprise Applications	Peter Kastner
--------------	-------------------------	---------------

In this *InSight*, Aberdeen examines the long-anticipated launch of Microsoft's Windows XP operating system.

***Free Whitepaper:* Component-Based Architectures: Time to Migrate the Enterprise Application Portfolio?**

November 2001	Supply Chain Management	Tim Minahan
---------------	-------------------------	-------------

This Aberdeen *Executive White Paper* reviews the challenges and tradeoffs facing IT decision-makers today in standardizing on a component-based architecture. It also reviews the tradeoffs between best practices functionality and the integration and ongoing support costs of managing the enterprise application portfolio.

***InSight:* Blade Servers and SAN Virtualization: Planning the Nuptials**

November 2001	Storage and Storage Management	Dan Tanner
---------------	--------------------------------	------------

This Aberdeen *InSight* discusses how blade servers can achieve their full potential in today's enterprise architecture. The *InSight* also offers readers straightforward explanations and suggestions for implementation.

***InSight:* Blades: An Evolution in Server Density**

November 2001	Windows NT/Windows 2000 Platforms	Tom Manter
---------------	-----------------------------------	------------

This Aberdeen *InSight* discusses the "blade server paradigm"; it also suggests that the ultimate success of blade servers will depend on how effectively suppliers and IS buyers design blade-server and back-end storage architectures.

***InSights:* HP's Acquisition of Compaq: Beyond the Naysayers, the Promise and the Opportunity**

November 2001	HP Acquisition of Compaq	Various
---------------	--------------------------	---------

Aberdeen Closely Examines the Acquisition from Multiple Industry, Customer, and Competitive Perspectives

[More Recent Publications](#)[Browse Aberdeen's InSights](#)

Recent Publications

For more information about Aberdeen Group:

- [Email Us](#)
- phone 800-577-7891
- outside the US: +1 617 854-5312

[More Recent Publications](#)[Browse Aberdeen's InSights](#)[Browse Aberdeen's Perspectives](#)**InSight:** [Another British Invasion? C&W Snags Exodus](#)

December 2001	Carrier and Enterprise Communications	Dana Tardelli
---------------	---------------------------------------	---------------

In this *InSight*, Aberdeen outlines U.K.-based Cable & Wireless (C&W) \$850 million bid to acquire the majority of assets from former hosting king - but now bankrupt - Exodus Communications.

Impact: [Reefedge's Connect System Makes Wireless LANs Enterprise-Strength](#)

December 2001	Enterprise Systems Management	Valerie O'Connell
---------------	-------------------------------	-------------------

The Reefedge Connect System - the focus of this Aberdeen *Impact* - directly addresses the issues of wireless local area networks (WLANs), rendering them well-behaved citizens of enterprise IT.

InSight: [Compaq Tru64 Unix and Oracle9i Clusters Combine to Reduce Costs: Can SAP Resist This Fit?](#)

December 2001	e-Business and Enterprise Applications	Robert Dorin
---------------	--	--------------

In this *InSight*, Aberdeen discusses why SAP should enthusiastically support Oracle9i and the Compaq/Oracle technology partnership.

Viewpoint: [Expense Management Automation Offers Antidote to the Down Economy](#)

December 2001	Supply Chain Management	Christa Degnan
---------------	-------------------------	----------------

This Aberdeen *Market Viewpoint* outlines the need for EMA, calculates the market opportunity, describes the differentiating features among systems, and quantifies the benefits of online expense management.

InSight: [Early Results: Technology Forecasting Consortium Members Identify IT Spending Hotspots](#)

December 2001	e-Business	Ed Black
---------------	------------	----------

While the full tale of the tape is not yet known, preliminary analysis, presented in this Aberdeen *InSight*, is yielding some telling results — despite the downturn, customers, security, and software infrastructure are all driving spending.

White Paper: [Complex Indirect Procurement: The Final Frontier for Savings](#)

November 2001	Supply Chain Research	Tim A. Minahan
---------------	-----------------------	----------------

This Aberdeen Group *Executive White Paper* illustrates the growing importance of procurement. This document also defines the benefits and pitfalls of e-Procurement automation and articulates a framework for full-cycle procurement.

InSight: [DSO, Anthrax, and the Hardening of Postal Arteries: Is It Finally Time for e-Billing and Payment?](#)

November 2001	e-Business	Andrei V. Arkhipov and David M. Alschuler
---------------	------------	---

In this *InSight*, Aberdeen discusses why there will likely be increased appeal for Electronic Bill and Invoice Presentment and e-Payment technologies in the near term.

Impact: [ADP's Benefits eXpert Provides Benefits Management for the Mid-Market](#)

November 2001	Enterprise Applications	Katherine Jones
---------------	-------------------------	-----------------

Benefits eXpert - the focus of this Aberdeen *Impact* - is a hosted Internet product that requires just a single browser for all employees across an organization to directly access and update their HR data, current benefit elections and choices, and beneficiary and dependent information.

Profile: [SEAGULL Specializes in Simplifying Complexity - A Rapid Time-to-Market Differentiator](#)

November 2001	Internet Infrastructure	Darcy Fowkes
---------------	-------------------------	--------------

This Aberdeen *Profile* reviews SEAGULL's non-invasive software technologies for extending mainframe and iSeries environments to desktops, the Internet, and mobile devices.

Free Research Report: [Offshore Software Development: Localization, Globalization, and Best Practices in an Evolving Industry](#)

November 2001	Professional Services	Stephen Lane
<i>Offshore Software Development: Localization, Globalization, and Best Practices in an Evolving Industry</i> examines the impact of globalization and localization in the offshore software development and outsourcing sectors as well as continuing changes in this highly diverse industry.		
Impact: Unisys' `Benchmark Gorilla' Sets New SAP Standard on Windows- and Intel-based ES7000 Database Server		
November 2001	e-Business and Enterprise Applications	Robert Dorin
Unisys' commitment to the highest levels of performance and enterprise-class reliability on a Windows- and Intel-based platform is the chief focus of this Aberdeen <i>Impact</i> .		
Impact: VeriSign's Managed DNS Services: Flexible, Trusted Domain Name Management		
November 2001	Internet Infrastructure	Michael Hoch
This Aberdeen <i>Impact</i> highlights three approaches to DNS management: fully in-house software and hardware products, outsourced DNS management services, and a hybrid approach of the two.		
Impact: CA's IT Resource Management Solutions Provide a Basis for Running IT Operations as a Business Entity		
November 2001	Enterprise Systems Management	Valerie O'Connell
Shining light at the end of this IT tunnel is Computer Associates' (CA) IT Resource Management (ITRM), the focus of this Aberdeen <i>Impact</i> .		
Impact: CA Does the Right Thing; Customers Say CRO Rocks		
November 2001	Enterprise Systems Management	Valerie O'Connell
The results of introducing CRO at CA, including several customer testimonials, make up the primary focus of this Aberdeen <i>Impact</i> .		
Profile: BNL Multiservizi Banks on Sun Platform Infrastructure for Internet Initiatives, Taps Architectural Guidance of Sun Professional Services		
November 2001	IT Services	Stephen Lane
This Aberdeen <i>OnSite Profile</i> describes how Sun Professional Services helped design and implement the infrastructure - and then worked with BNL MLS to architect and build the system and application infrastructure.		
InSight: Why Many ASPs Will Become ex-SPs		
November 2001	Application Service Providers	Lew Hollerbach
This <i>Aberdeen InSight</i> examines how a significant majority of application service providers (ASPs) will be seeking additional rounds of funding in the coming months.		
Profile: Profiting from ASPs - Even if a Non-Profit		
October 2001	Application Service Providers	Lew Hollerbach
This Aberdeen <i>OnSite Profile</i> examines how The Salvation Army substantially reduced its administrative costs by turning to ManagedOps, an application service provider (ASP) providing Great Plains application hosting and management.		
Profile: Collaborative Commerce Coalition: BayanTrade Marketplace Brings Buyers and Suppliers Online for Process Efficiencies and Cost Savings		
October 2001	Supply Chain Management	Christa Degnan
This <i>OnSite</i> defines the emerging potential of BayanTrade's "virtual verticals" - built on top of the Commerce One collaborative commerce platform - that deliver private trading exchanges within the overall value-added services marketplace infrastructure.		
Profile: Implementation Success: Choosing the ASP Option		
September 2001	Application Service Providers	Lew Hollerbach
This Aberdeen <i>OnSite Profile</i> examines how Context, a company on a steep growth curve, used an ASP - Surebridge - as a low-risk accelerator to the world of mission-critical applications.		
Profile: iPass: Extending the Reach of Global Remote Access Through Greater Redundancy and Simplicity		
September 2001	Communications Service Providers	Dana Tardelli
This <i>Profile</i> provides an overview of iPass, a supplier of global remote access services and its hybrid strategy as well as its value proposition.		
Profile: Fostering Intelligent Dialogs Between an Enterprise and Its Customers, Partners, and Employees		
October 2001	Internet Analytics	Guy Creese

With its *Kaidara Commerce* and *Kaidara Advisor* software, the focus of this Aberdeen *Profile*, Kaidara delivers modules that specialize in recommending products and resolving problems in many contexts.

[More Recent Publications](#)[Browse Aberdeen's InSights](#)[Browse Aberdeen's Perspectives](#)

<i>InSight:</i> Is Linux Domination of the High-Performance-Computing (HPC) Marketplace Imminent?		
November 2001	Linux and Open Source Software	Bill Claybrook
This <i>InSight</i> examines the HPC marketplace for Linux, and it outlines multiple reasons why Linux will be a successful alternative to proprietary systems in HPC.		
<i>Free Viewpoint:</i> Microsoft: Changing the Face of CRM		
November 2001	Customer Relationship Management	Christopher Fletcher
This <i>Market Viewpoint</i> develops Aberdeen's hypothesis that Microsoft's entry into CRM and the business applications market represents the single biggest threat - and the single largest opportunity - they may see for a very long time.		
<i>Free Viewpoint:</i> Can Financial Analytics Deliver Fair Value?		
November 2001	Financial Analytics	Alan Yong
The <i>Viewpoint</i> explains the functional and technical requirements imposed by fair value on financial analytic software - and the market opportunity presented to the suppliers offering thought and product leadership in this space.		
<i>Free Viewpoint:</i> Thinking Outside the Catalog: Online Services Procurement (OSP)		
November 2001	Supply Chain Management	Christa Degnan
Aberdeen research has shown that Internet-based procurement automation (e-Procurement) can dramatically reduce the costs and process cycles associated with purchasing operational goods such as office supplies, computer equipment, and maintenance items...		
<i>InSight:</i> Post-Hype: A New Phase in the Evolution of the Optical Circuits Industry		
October 2001	Carrier and Enterprise Communications	Esme' Fantozzi
This <i>InSight</i> details the qualifying factors that must take place in the evolution of PLCs from sample quantity production into the large-scale manufacturing mainstream.		
<i>InSight:</i> Cable Operators May Lose the Triple Crown		
October 2001	Carrier and Enterprise Communications	George Peabody
This Aberdeen <i>InSight</i> offers some suggestions for getting the multiple system operators (MSOs) on track.		
<i>InSight:</i> The Second Coming of Netmarkets		
October 2001	e-Business - Netmarkets	Bill Brandel
This <i>InSight</i> reflects Aberdeen Group's Net Markets best practices, and draws on Aberdeen's framework for measuring liquidity to determine the leaders in this market segment.		
<i>InSight:</i> i2 Gets Its Assets in Gear		
October 2001	e-Business	Tim Minahan
This <i>InSight</i> reflects Aberdeen Group's analysis of i2's solutions and business strategy in light of the current business environment.		
<i>Free White Paper:</i> Logistics Resource Management: It's Not Just About Moving Goods Anymore		
September 2001	Collaborative Business Solutions	Jack Maynard
Manufacturers today operate in a competitive, technology-enabled marketplace. No longer do companies attempt to do everything themselves; they rely heavily on supplier-partners - and even customers - to assist in determining what products will be made and how and when they are to be delivered...		
<i>Profile:</i> Destination ASP: With Sun, ISVs Can Look Forward to the Trip		
October 2001	Application Service Providers	Lew Hollerbach
Destination ASP - which is outlined in this Aberdeen <i>Announcement Profile</i> - aims to help service providers get to market quickly and profitably, leverage Sun's many resources better, generate leads, and ultimately drive sales.		
<i>InSight:</i> Virtualization Needs Standards		

October 2001	Storage and Storage Management	Dan Tanner
Placing attribute information in a storage virtualization standard framework - the benefits of which are detailed in this Aberdeen <i>InSight</i> - could allow users to cut storage-administration costs, improve per performance and security, and provide direct file control.		
<i>Impact:</i> Hewlett-Packard's FSAM: The Storage Federation Gathers		
October 2001	Storage and Storage Management	Dan Tanner
This <i>Impact</i> analyzes the HP storage infrastructure, its new storage alliance and merger, and the benefits these investments will bring to enterprise storage buyers.		
<i>InSight:</i> Assessing The Damage: Will Fourth Quarter Technology Spending Fall?		
September 2001	IT Spending	David Wright
This Aberdeen <i>InSight</i> will examine what impact the tragic events of September 11 will have on the economy of the world's 800-pound gorilla?		
<i>Profile:</i> IBX: Providing a Global Supply Base for Nordic Multinationals		
September 2001	e-Business	Frances Howarth
IBX, the focus of this Aberdeen <i>OnSite</i> , is actively looking to engage in further partnerships to increase the services it offers through the marketplace.		
<i>Impact:</i> Mirapoint Internet Directory Elevates Communications Servers to Platform Status		
September 2001	Internet Infrastructure	Dana Gardner
Mirapoint Internet Directory - largely the focus of this Aberdeen <i>Impact</i> - forms a core within Mirapoint, Inc.'s product suite:		
<i>Profile:</i> Sun and HDS: Lighting Up the Storage Sky		
September 2001	Storage and Storage Management	Dan Tanner
The Sun-HDS alliance, the focus of this Aberdeen <i>Announcement Profile</i> , helps both companies, providing high-end storage solutions for Sun and helping HDS sell more of its high-end storage subsystems.		
<i>Impact:</i> IT-Savvy Barcode Printers from Zebra: Web-Enabled Application Management		
September 2001	Enterprise Systems Management	Valerie O'Connell
Zebra's solution, called IT IQ, directly benefits IT developers and operations; line-of-business managers will appreciate the increased functionality that it brings to the top-notch products they've known and used for years.		
<i>Impact:</i> Vividon Pushes Streaming Media Price-Performance with High-Density, Small-Footprint Delivery System		
September 2001	Internet Infrastructure	Michael Hoch
With certified standards interoperability, Vividon's Streaming Delivery System - the focus of this Aberdeen <i>Impact</i> - enables providers to cost-effectively deliver high-quality, fully functional streaming media.		
<i>InSight:</i> PeopleSoft's Messages Connect with Customers: New Products, Renewed Commitment to Users		
September 2001	Enterprise Applications	Katherine Jones
This Aberdeen <i>InSight</i> reviews significant PeopleSoft announcements, offers an overview of its new collaborative business planning products, and discusses the benefits of the company's newly bolstered commitment to its customers.		
<i>Impact:</i> MatrixOne Drives Collaborative Commerce for the Automotive Value Chain		
September 2001	Supply Chain Research	Tim Minahan
This <i>Impact</i> examines CPC in the automotive sector and evaluates MatrixOne's ability to deliver a product collaboration platform and process-specific application modules to coordinate and manage the automotive value chain.		
<i>Profile:</i> Silas Technologies' Reveille: Business-Level Application Monitoring Unites IT and Business Community in Real Time		
September 2001	Enterprise Systems Management	Valerie O'Connell
This Aberdeen <i>OnSite</i> examines Reveille, which is software that monitors complex applications across almost any combination of platforms.		
<i>Profile:</i> Quantum Snap Servers: Bringing Flexibility and Ease-of-Use for Diverse Applications		
September 2001	Storage & Storage Management	Zachary Shess
This Aberdeen <i>Profile</i> describes Quantum's Snap Server® workgroup server and how its NAS architecture has enabled a diverse group of organizations to		

capitalize on its simple administration and management to provide flexible, inexpensive networked storage.		
Impact: McAfee's ePolicy Orchestrator Eliminates the Holes in the Enterprise's Anti-Virus Armor		
September 2001	Information Security	Eric Hemmendinger
In this <i>Profile</i> , Aberdeen examines how Network Associates helps IS administrators implement and maintain a comprehensive shield against viruses.		
Profile: Honeywell IC and Webridge: Creating Electronic Customer 'Intimacy' with a High-Performance, Personalized e-Business Strategy		
September 2001	Customer Relationship Management	Karen Smith
This <i>OnSite Profile</i> describes how Honeywell IC worked with Webridge to expand its profitability and productivity through a personalized, high-touch, and high-quality sales and service portal.		
Profile: RealNames: Context-Intelligent Naming and Resolution Services		
September 2001	Internet Infrastructure	Michael Hoch
This <i>Profile</i> provides an overview of RealNames' Keyword and namespace technology and concludes with Aberdeen's analysis of RealNames' opportunity in today's market.		
InSight: Winning the Enterprise: Pocket PC Will Be the Pervasive Handheld Platform by 2005		
September 2001	Wireless	Isaac Ro, David Wright, and Christopher Fletcher
In this <i>InSight</i> , Aberdeen analyzes market trends and predicts that a far higher rate of adoption across the enterprise will allow Pocket PC to eclipse the Palm OS as the leading handheld platform by 2005.		
InSight: PDAs in the Enterprise: Analyzing Supplier Viability		
September 2001	Wireless	Isaac Ro, David Wright, and Christopher Fletcher
In this <i>InSight</i> , Aberdeen evaluates the leading vendors in the PDA market from both a product and a supplier-viability perspective using our "Market Positioning Pyramid" (MPP).

Impact: Xebic: Enabling Network-Centric Collaboration		
July 2001	Enterprise Applications	Jack Maynard
This Aberdeen <i>Impact</i> examines Xebic, which provides both the technological foundation and an out-of-the-box solution for users to leverage the Internet to develop and support products collaboratively.		
Profile: FalconStor Software: Easy Upgrade to the Storage Utility		
July 2001	Storage and Storage Management	Dan Tanner
Aberdeen finds that FalconStor's IPStor, which is the focus of this Aberdeen <i>Profile</i> , is a major step toward realizing the storage utility.		
InSight: Web-to-Host Faces the 'Survival of the Fittest'		
July 2001	Internet Infrastructure	Darcy Fowkes
This <i>InSight</i> reviews the industry trend and the effects TBI will have on legacy extension suppliers, as well as presents e-Business integration supplier NEON Systems.		
Profile: Prophet 21 CommerceCenter: Comprehensive Distribution Management		
July 2001	Enterprise Applications	Robert Dorin
In this <i>Profile</i> , Aberdeen discusses how Prophet 21 is well positioned to meet the changing and growing business demands of its distribution-centric customers.		
InSight: The Missing Link in B-to-B e-Commerce: Financial Value Chain Management		
July 2001	Enterprise Applications	Andrei Arkhipov
This <i>InSight</i> examines various aspects of what Aberdeen calls Financial Value Chain Management (FVCM).		
Impact: Tradec: Direct e-Procurement for the High-Tech Supply Chain		
July 2001	e-Business	Tim Minahan
This Aberdeen <i>Impact</i> articulates the requirements of effective direct procurement automation, particularly for highly competitive and time-sensitive industries, such as electronics manufacturing.		
Profile: eScout Marketplace Solution Provides Platform for Extending the Value of Existing Business Relationships		
July 2001	e-Business	Christa Degnan
This Aberdeen <i>OnSite Profile</i> discusses eScout's unique e-Marketplace solution and business model and how it leverages the inherent trust and local touch of banks to help businesses succeed in e-Commerce.		
Impact: DataCore Software's SANsymphony: Storage Virtualization Value Made Real		
August 2001	Storage and Storage Management	Dan Tanner
DataCore Software's SANsymphony storage virtualization, the focus of this Aberdeen <i>Impact</i> , exploits existing storage capacity and leverages IS personnel skills to raise storage return on investment.		
Profile: Contact to Contract - An Improved Sales Paradigm		
July 2001	Customer Relationship Management	Denis Pombriant
Sales and marketing organizations have been "friendly adversaries" since the first Roman uttered caveat emptor. This Aberdeen <i>Profile</i> examines deoux's attempt coordinating sales and marketing activities for maximum effect.		
Profile: BizWorks' eBusiness Process Management Suite		
July 2001	e-Business	Peter Kastner and Valerie O'Connell
In this <i>Profile</i> Aberdeen examines interBiz, the eBusiness application and software and services division of Computer Associates International, Inc. (CA) offers an innovative strategy for open, end-to-end, cross-enterprise application integration.		
Free White Paper: Software Microbes: New Threat Calls for a Rethinking of Security		
June 2001	Information Security	Jim Hurley
A new invasion is occurring on PCs throughout the enterprise network, one that will have IS (Information Systems) administrators yearning for the simpler prob-		

lem of recovering from software virus damage. Invisible "software microbes" - pulled in by unsuspecting PC users through firewalls, Web browsers, and e-mail systems- are assaulting the enterprise network...

Profile: [CA's eTrust Directory: A Cornerstone of e-Business Infrastructure](#)

June 2001	Information Security	Jim Hurley
-----------	----------------------	------------

This Aberdeen *Profile* provides insight into how CA is staking its claim as one of the only suppliers that can realistically be considered a trusted enterprise-class supplier of security solutions.

Profile: [CES Energy Distribution Delivery Management: Utility IT for the Future](#)

June 2001	Energy and Communications	Ethan Cohen
-----------	---------------------------	-------------

This *Profile* also outlines CES International's strategy for helping utilities solve the energy delivery management (EDM) equation in the context of changing business models, regulatory environments, and technology.

Impact: Turning Processes into Profits		
July 2001	Financial Analytics	Alan Yong
Lombardi Software's ValueNow™ methodology - the focus of this Aberdeen <i>Impact</i> - analyzes a company's key financial metrics to craft a process optimization strategy to boost earnings.		
Profile: Dell Ramps Up Its Product and Service Offerings in the U.K. and Ireland		
July 2001	e-Business	Frances Howarth
This Aberdeen <i>Profile</i> examines Dell's call center operations and manufacturing divisions in the U.K. and Ireland.		
Impact: Cyclone Commerce Enables e-Commerce Critical Mass with Trading Community Management		
June 2001	e-Business	Andy Katz
Cyclone Commerce - the focus of this Aberdeen <i>Impact</i> - provides a full-featured, flexible platform that leverages existing infrastructures and allows enterprises and e-Markets to rapidly build large, inclusive trading communities.		
Profile: BrightStor Enterprise Backup for Oracle: Expanding Oracle Availability and Robustness in a Heterogeneous World		
June 2001	Enterprise Applications	Wayne Kernochan
This Aberdeen <i>Profile</i> describes Computer Associates' BrightStor Enterprise Backup enterprise data protection software and the features that make it especially suitable for Oracle-database backup and restore.		
Profile: CNS: Up and Coming MSP Democratizes CA's Unicenter - Enterprise-Class Management Now Accessible to SMB Market		
June 2001	Enterprise Systems Management	Valerie O'Connell
This Aberdeen <i>OnSite Profile</i> examines how CNS has successfully extended its business reach into the high-growth managed service provider (MSP) arena - specifically, management services.		
Profile: BrightStor Enterprise Backup: Ensuring Data Integrity and Protection Across Multiple Platforms		
June 2001	Enterprise Applications	Zachary Shess
This Aberdeen <i>Profile</i> describes Computer Associates' BrightStor Enterprise Backup enterprise data protection software.		
Profile: Notara Introduces Marketing Process Management Solutions to Automate Collaboration Between Brand Marketers and Their Partners		
June 2001	e-Business	Robert Dorin
Notara's Marketing Process Management (MPM) software, the focus of this Aberdeen <i>Profile</i> , enables brand owners to collaborate more effectively with their marketing partners and allows them to focus on value-added marketing activities rather than on administrative tasks.		
InSight: SAP: The Once and Future King		
July 2001	e-Business	David Alschuler, Bill Brandel, Christopher Fletcher and Tim Minahan
The SAP story was compelling at this year's SAPHIRE, leading Aberdeen to believe that this lion isn't quite ready to cede its hegemony.		
Profile: RiverSoft Version 3: A Quiet Revolution		
June 2001	Enterprise Systems Management	Valerie O'Connell
Not yet an 800-pound gorilla of network management, the four-year-old RiverSoft has nonetheless planted significant footprints in the space. This <i>Announcement Profile</i> examines the basics of RiverSoft's Version 3.		
Profile: Informatica: Generating Cross-Enterprise Insight		
June 2001	Data Knowledge and Decision Support	Bob Moran and Guy Creese
This Aberdeen <i>Profile</i> describes Informatica's analytical applications, discusses their sophisticated technological underpinnings, and explains how the software helps enterprises understand the enterprisewide implications of departmental shifts in business strategy.		

<i>Profile</i> : Talisma: Building a Complete CRM Solution from a Foundation in Web-Based Service		
June 2001	Customer Relationship Management	Chris Martins
The challenge for suppliers competing in 2001's tumultuous market environment is to combine product functionality and business viability. Within that context, this <i>Aberdeen Profile</i> reviews Talisma, a CRM solution supplier.		
<i>InSight</i> : Mobile CRM: Why Wait for Wireless?		
June 2001	Customer Relationship Management	Christopher Fletcher
This <i>InSight</i> evaluates some ready-to-deploy alternatives to wireless enterprise applications, and offers a few options for those who are unwilling to wait for wireless.

[More Recent Publications](#)[Browse Aberdeen's InSights](#)[Browse Aberdeen's Perspectives](#)

<i>InSight:</i> Another British Invasion? C&W Snags Exodus		
December 2001	Carrier and Enterprise Communications	Dana Tardelli
In this <i>InSight</i> , Aberdeen outlines U.K.-based Cable & Wireless (C&W) \$850 million bid to acquire the majority of assets from former hosting king - but now bankrupt - Exodus Communications.		
<i>Impact:</i> Reefedge's Connect System Makes Wireless LANs Enterprise-Strength		
December 2001	Enterprise Systems Management	Valerie O'Connell
The Reefedge Connect System - the focus of this Aberdeen <i>Impact</i> - directly addresses the issues of wireless local area networks (WLANs), rendering them well-behaved citizens of enterprise IT.		
<i>InSight:</i> Compaq Tru64 Unix and Oracle9i Clusters Combine to Reduce Costs: Can SAP Resist This Fit?		
December 2001	e-Business and Enterprise Applications	Robert Dorin
In this <i>InSight</i> , Aberdeen discusses why SAP should enthusiastically support Oracle9i and the Compaq/Oracle technology partnership.		
<i>Viewpoint:</i> Expense Management Automation Offers Antidote to the Down Economy		
December 2001	Supply Chain Management	Christa Degnan
This Aberdeen <i>Market Viewpoint</i> outlines the need for EMA, calculates the market opportunity, describes the differentiating features among systems, and quantifies the benefits of online expense management.		
<i>InSight:</i> Early Results: Technology Forecasting Consortium Members Identify IT Spending Hotspots		
December 2001	e-Business	Ed Black
While the full tale of the tape is not yet known, preliminary analysis, presented in this Aberdeen <i>InSight</i> , is yielding some telling results — despite the downturn, customers, security, and software infrastructure are all driving spending.		
<i>White Paper:</i> Complex Indirect Procurement: The Final Frontier for Savings		
November 2001	Supply Chain Research	Tim A. Minahan
This Aberdeen Group <i>Executive White Paper</i> illustrates the growing importance of procurement. This document also defines the benefits and pitfalls of e-Procurement automation and articulates a framework for full-cycle procurement.		
<i>InSight:</i> DSO, Anthrax, and the Hardening of Postal Arteries: Is It Finally Time for e-Billing and Payment?		
November 2001	e-Business	Andrei V. Arkhipov and David M. Alschuler
In this <i>InSight</i> , Aberdeen discusses why there will likely be increased appeal for Electronic Bill and Invoice Presentment and e-Payment technologies in the near term.		
<i>Impact:</i> ADP's Benefits eXpert Provides Benefits Management for the Mid-Market		
November 2001	Enterprise Applications	Katherine Jones
Benefits eXpert - the focus of this Aberdeen <i>Impact</i> - is a hosted Internet product that requires just a single browser for all employees across an organization to directly access and update their HR data, current benefit elections and choices, and beneficiary and dependent information.		
<i>Profile:</i> SEAGULL Specializes in Simplifying Complexity - A Rapid Time-to-Market Differentiator		
November 2001	Internet Infrastructure	Darcy Fowkes
This Aberdeen <i>Profile</i> reviews SEAGULL's non-invasive software technologies for extending mainframe and iSeries environments to desktops, the Internet, and mobile devices.		
<i>Free Research Report:</i> Offshore Software Development: Localization, Globalization, and Best Practices in an Evolving Industry		

November 2001	Professional Services	Stephen Lane
<i>Offshore Software Development: Localization, Globalization, and Best Practices in an Evolving Industry</i> examines the impact of globalization and localization in the offshore software development and outsourcing sectors as well as continuing changes in this highly diverse industry.		
<i>Impact:</i> Unisys' `Benchmark Gorilla' Sets New SAP Standard on Windows- and Intel-based ES7000 Database Server		
November 2001	e-Business and Enterprise Applications	Robert Dorin
Unisys' commitment to the highest levels of performance and enterprise-class reliability on a Windows- and Intel-based platform is the chief focus of this Aberdeen <i>Impact</i> .		
<i>Impact:</i> VeriSign's Managed DNS Services: Flexible, Trusted Domain Name Management		
November 2001	Internet Infrastructure	Michael Hoch
This Aberdeen <i>Impact</i> highlights three approaches to DNS management: fully in-house software and hardware products, outsourced DNS management services, and a hybrid approach of the two.		
<i>Impact:</i> CA's IT Resource Management Solutions Provide a Basis for Running IT Operations as a Business Entity		
November 2001	Enterprise Systems Management	Valerie O'Connell
Shining light at the end of this IT tunnel is Computer Associates' (CA) IT Resource Management (ITRM), the focus of this Aberdeen <i>Impact</i> .		
<i>Impact:</i> CA Does the Right Thing; Customers Say CRO Rocks		
November 2001	Enterprise Systems Management	Valerie O'Connell
The results of introducing CRO at CA, including several customer testimonials, make up the primary focus of this Aberdeen <i>Impact</i> .		
<i>Profile:</i> BNL Multiservizi Banks on Sun Platform Infrastructure for Internet Initiatives, Taps Architectural Guidance of Sun Professional Services		
November 2001	IT Services	Stephen Lane
This Aberdeen <i>OnSite Profile</i> describes how Sun Professional Services helped design and implement the infrastructure - and then worked with BNL MLS to architect and build the system and application infrastructure.		
<i>InSight:</i> Why Many ASPs Will Become ex-SPs		
November 2001	Application Service Providers	Lew Hollerbach
This <i>Aberdeen InSight</i> examines how a significant majority of application service providers (ASPs) will be seeking additional rounds of funding in the coming months.		
<i>Profile:</i> Profiting from ASPs - Even if a Non-Profit		
October 2001	Application Service Providers	Lew Hollerbach
This Aberdeen <i>OnSite Profile</i> examines how The Salvation Army substantially reduced its administrative costs by turning to ManagedOps, an application service provider (ASP) providing Great Plains application hosting and management.		
<i>Profile:</i> Collaborative Commerce Coalition: BayanTrade Marketplace Brings Buyers and Suppliers Online for Process Efficiencies and Cost Savings		
October 2001	Supply Chain Management	Christa Degnan
This <i>OnSite</i> defines the emerging potential of BayanTrade's "virtual verticals" - built on top of the Commerce One collaborative commerce platform - that deliver private trading exchanges within the overall value-added services marketplace infrastructure.		
<i>Profile:</i> Implementation Success: Choosing the ASP Option		
September 2001	Application Service Providers	Lew Hollerbach
This Aberdeen <i>OnSite Profile</i> examines how Context, a company on a steep growth curve, used an ASP - Surebridge - as a low-risk accelerator to the world of mission-critical applications.		
<i>Profile:</i> iPass: Extending the Reach of Global Remote Access Through Greater Redundancy and Simplicity		
September 2001	Communications Service Providers	Dana Tardelli
This <i>Profile</i> provides an overview of iPass, a supplier of global remote access services and its hybrid strategy as well as its value proposition.		
<i>Profile:</i> Fostering Intelligent Dialogs Between an Enterprise and Its Customers, Partners, and Employees		
October 2001	Internet Analytics	Guy Creese

With its *Kaidara Commerce* and *Kaidara Advisor* software, the focus of this Aberdeen *Profile*, Kaidara delivers modules that specialize in recommending products and resolving problems in many contexts.

[More Recent Publications](#)[Browse Aberdeen's InSights](#)[Browse Aberdeen's Perspectives](#)***InSight:* Enterprise 'Hay Day' on the Prairie: Microsoft Great Plains a Tornado to Be Reckoned with**

October 2001	Enterprise Applications	Katherine Jones
--------------	-------------------------	-----------------

As detailed in this *InSight*, Aberdeen sees widening product breadth, international growth, up-market movement in enterprise sales, and quite likely a new contender in the mid-market CRM arena.

***InSight:* Outsourcing Customer Care: Showcase for Competency, Buffer from Complexity**

October 2001	Customer Relationship Management	Chris Martins
--------------	----------------------------------	---------------

This Aberdeen *InSight* makes a case for Customer Interaction Management (CIM) outsourcing as a savvy deployment approach to customer management strategies in today's uncertain business climate.

***InSight:* Living with Windows XP Media Player and Wireless Support**

October 2001	Enterprise Applications	Peter Kastner
--------------	-------------------------	---------------

In this *InSight*, Aberdeen details why we believe almost all previous Windows users are going to enjoy living with Windows XP.

***InSight:* Upgrading to Windows XP: A Long and Winding Road**

October 2001	Enterprise Applications	Peter Kastner
--------------	-------------------------	---------------

In this *InSight*, Aberdeen examines the long-anticipated launch of Microsoft's Windows XP operating system.

***Free Whitepaper:* Component-Based Architectures: Time to Migrate the Enterprise Application Portfolio?**

November 2001	Supply Chain Management	Tim Minahan
---------------	-------------------------	-------------

This Aberdeen *Executive White Paper* reviews the challenges and tradeoffs facing IT decision-makers today in standardizing on a component-based architecture. It also reviews the tradeoffs between best practices functionality and the integration and ongoing support costs of managing the enterprise application portfolio.

***InSight:* Blade Servers and SAN Virtualization: Planning the Nuptials**

November 2001	Storage and Storage Management	Dan Tanner
---------------	--------------------------------	------------

This Aberdeen *InSight* discusses how blade servers can achieve their full potential in today's enterprise architecture. The *InSight* also offers readers straightforward explanations and suggestions for implementation.

***InSight:* Blades: An Evolution in Server Density**

November 2001	Windows NT/Windows 2000 Platforms	Tom Manter
---------------	-----------------------------------	------------

This Aberdeen *InSight* discusses the "blade server paradigm"; it also suggests that the ultimate success of blade servers will depend on how effectively suppliers and IS buyers design blade-server and back-end storage architectures.

***InSights:* HP's Acquisition of Compaq: Beyond the Naysayers, the Promise and the Opportunity**

November 2001	HP Acquisition of Compaq	Various
---------------	--------------------------	---------

Aberdeen Closely Examines the Acquisition from Multiple Industry, Customer, and Competitive Perspectives
