## AberdeenGroup

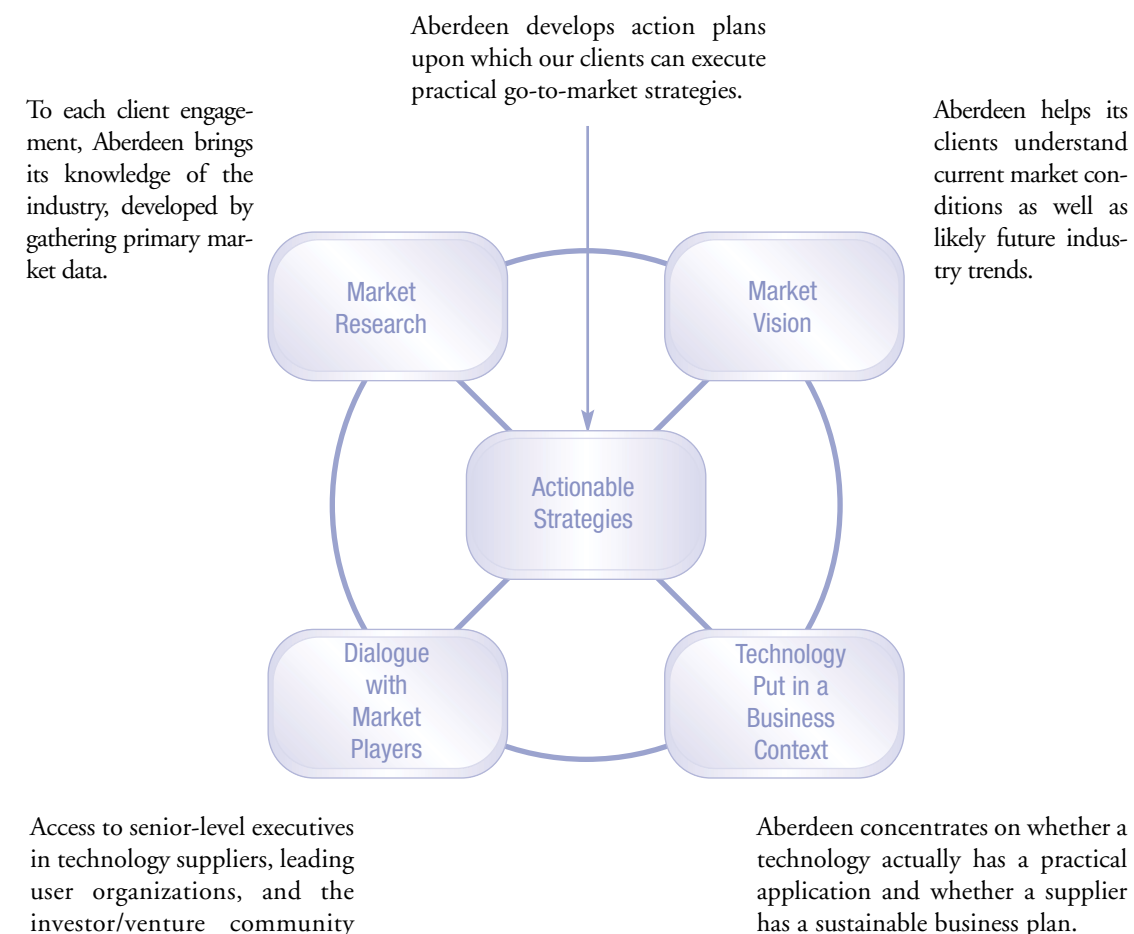

### Market Analysis and Positioning Services for Business Technology

To prosper in today's volatile markets, **technology suppliers must:**

- Anticipate rapidly changing technologies and business conditions
- Resolve market confusion, which slows adoption
- Build a unique value proposition to stand out in a crowded market

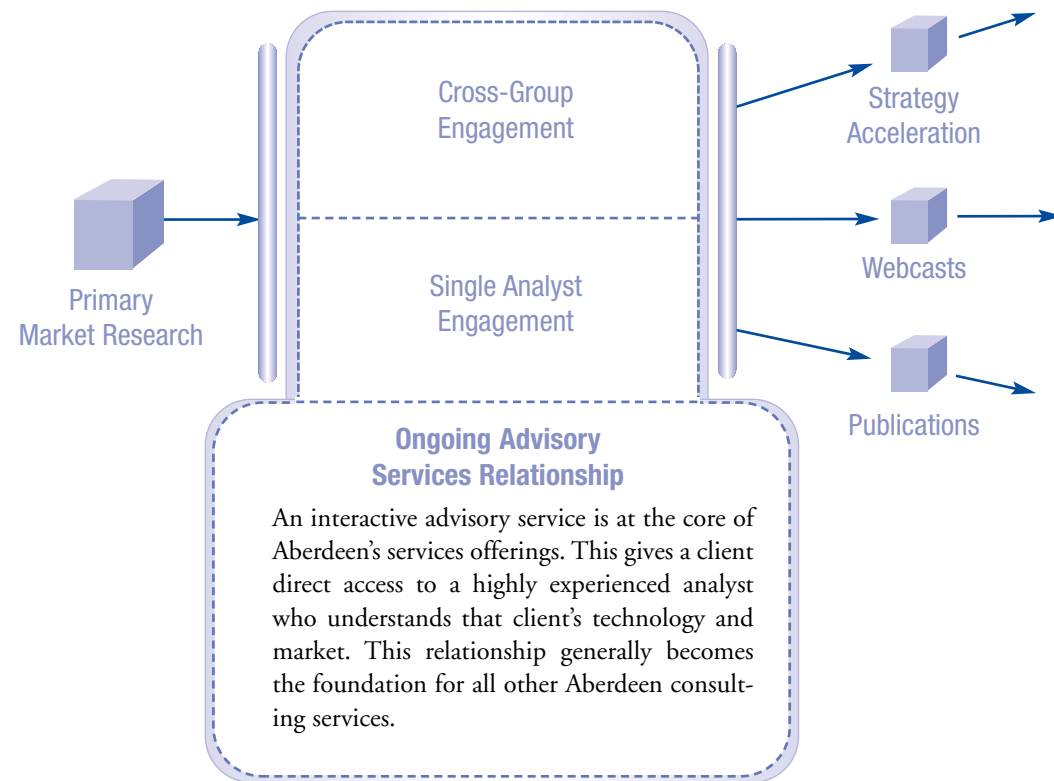

### Why Aberdeen?

Aberdeen Group is a leading IT market analysis and positioning services firm that helps Information Technology vendors establish leadership in emerging markets. Aberdeen's goal is to help our clients position their products and services for **success**. For 14 years, Aberdeen's client engagements have been based on the following core competencies:

## Engaging with Aberdeen

Aberdeen's business model illustrates how business technology suppliers can engage with us. The cornerstone of all Aberdeen services is a one-on-one relationship with our clients based upon custom presentation of key market findings.

### Primary Market Research

Aberdeen generates primary qualitative and quantitative market research data on emerging technology markets. In addition to our published research, clients can engage Aberdeen for custom research activities.

### Consulting Services

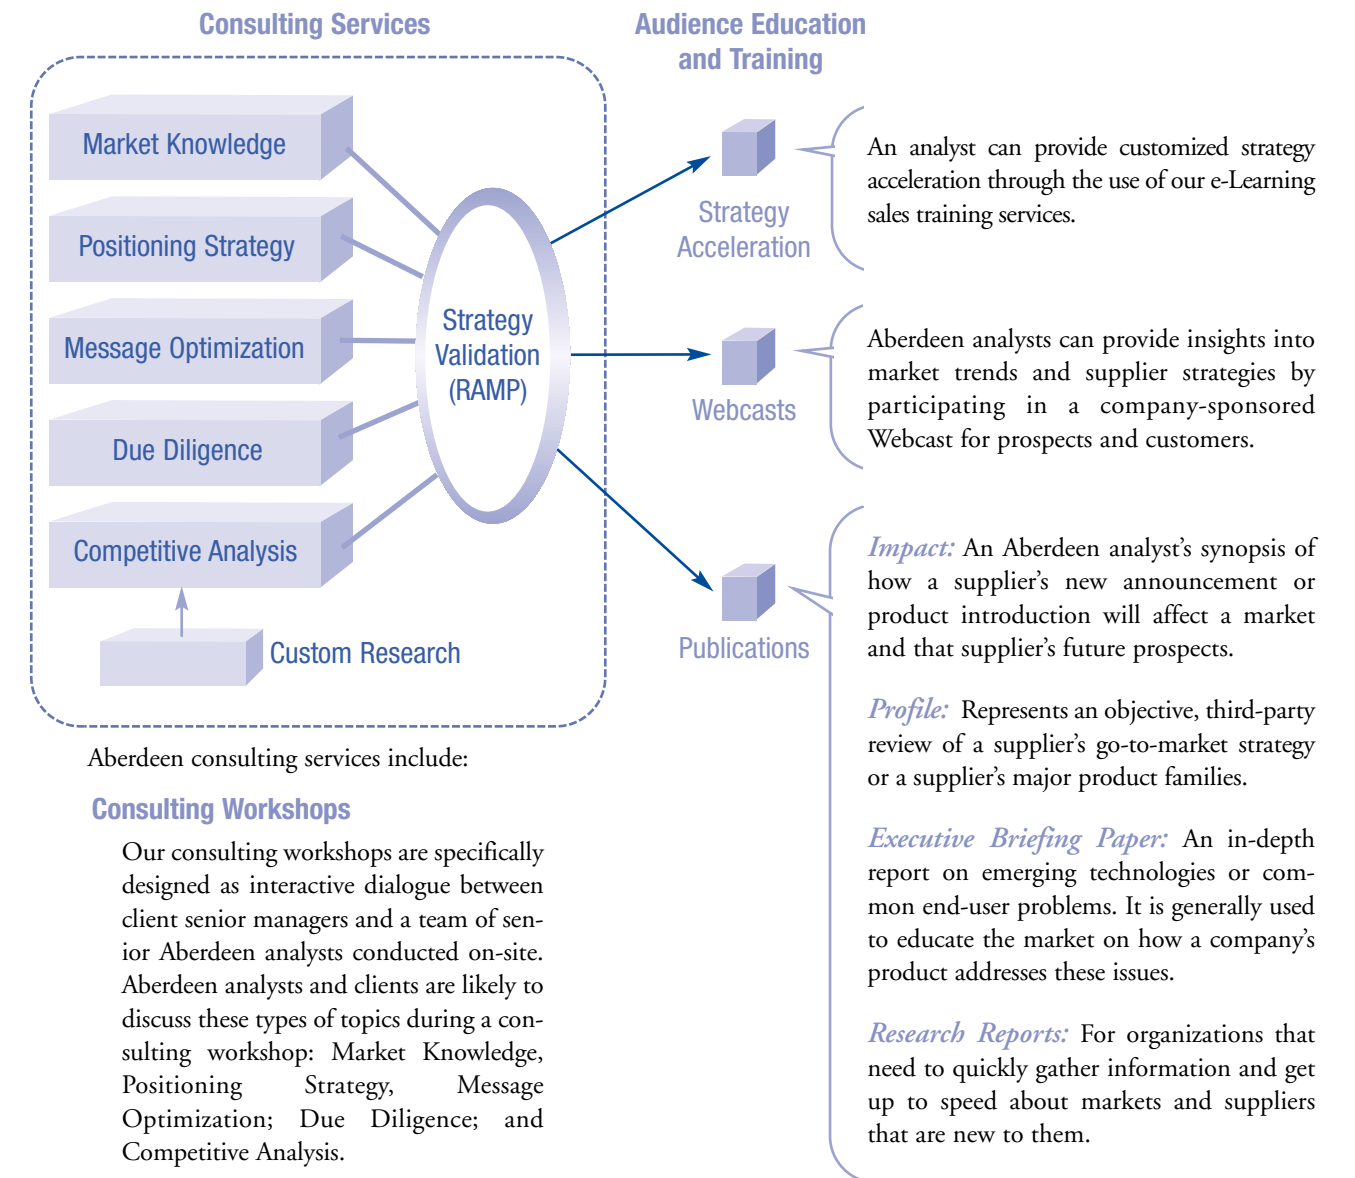

Aberdeen offers a variety of consulting services that help clients position their products for success across the product lifecycle. These engagements are structured as interactive dialogues and can involve a single analyst or multiple analysts working in different technology sectors.

### Audience Education and Training

Through a variety of consulting deliverables Aberdeen amplifies a client's positioning message and unique value proposition. Aberdeen also works to train and align a client's internal audiences, including the sales force and channel partners.

## Additional Products and Services

Although Aberdeen offers a portfolio of predefined services, each consulting engagement is uniquely designed to meet a client's particular needs.

Aberdeen consulting services include:

### Consulting Workshops

Our consulting workshops are specifically designed as interactive dialogue between client senior managers and a team of senior Aberdeen analysts conducted on-site. Aberdeen analysts and clients are likely to discuss these types of topics during a consulting workshop: Market Knowledge, Positioning Strategy, Message Optimization; Due Diligence; and Competitive Analysis.

### Strategy Validation

Aberdeen's *Rapid Accurate Market Positioning (RAMP)* engagement works for clients who need in-depth primary customer and prospect market research and analysis within a short time frame.
